

# ECOFLOW SMART GENERATOR (DUAL FUEL)

## SPECIFICATIONS

### Dimension

23.5x11.8x18.7 in/597x300x475mm

### Weight

67.2 lbs/30.5kg

### Type

Inverter Generator

### Frequency

50Hz

### Rated Voltage

230V

### Rated Power (Gas)

1800W (Peak Value 1900W)

### Rated Power (LPG)

1600W (Peak Value 1700W)

### DC Output Voltage

42-58.8 V

### DC Current

32A

## ENGINE SPECIFICATIONS

### Model

R80N-i

### Type

Single cylinder, four-stroke, forced-air cooling, overhead valve

### Displacement

79.7 CC

### Fuel Type

Unleaded Gasoline/LPG

### Fuel Tank Capacity

4.0 L/1.05 gal.

### Engine Oil Capacity

0.38 L/0.1 gal.

### Noise Level (at 7m distance)

56-67 dB (full load)

### Continuous Working Time (Gas)

3.5 Hours

Dual Fuel Smart Generator runs on gas or propane (LPG) and with both fuel options, you'll have access to power no matter what. With LPG as an additional fuel source, you get much more flexibility.

When the mains is off, it's ideal as an emergency option for your home or RV because gas is hard to come by. Not only that, you can store it longer and produce less fumes.
