

400W Portable Solar Panel

POWER & EFFICIENCY

Rated Power:

400W

Conversion Efficiency:

Up to 22.4%

Cell Type:

Monocrystalline silicon

MPPT Technology:

Ensures maximum power output throughout the day

PORTABILITY & DESIGN

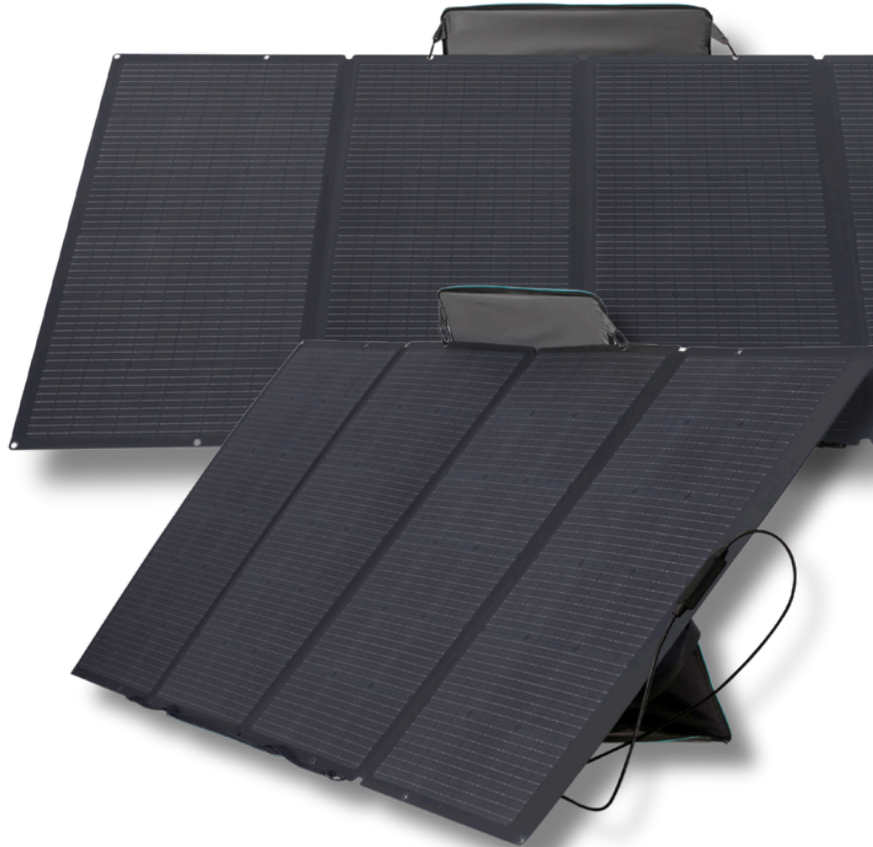

Weight:

12.5 kg

Foldable and compact for easy transport

Built-in shoulder strap and handle for convenient carrying

Protective case doubles as an adjustable stand (40°–90° tilt)

DURABILITY & BUILD

Materials:

Multi-layer EVA and reinforced fiberglass

Surface Protection:

ETFE coating for resistance to dirt, water, and scratches

Waterproof Rating:

IP67 – safe for use in rain, snow, and dusty environments

COMPATIBILITY

Connector Type:

MC4 universal connector

Device Support:

Compatible with EcoFlow DELTA Series and most third-party solar generators
