Height: 125 cm to 200 cm

(without the 5/8" thread)

Weight: 900 g

### Tripod:

Height: 92 cm

### Weight:

2800 g

The new D-RTK 3 Survey Pole and Tripod Kit features a self-locking survey pole with easy height adjustment and a dual-lock tripod for easy leveling. The survey pole and tripod are designed to work together seamlessly with the D-RTK 3 Multifunctional Station, allowing flexible configuration based on different scenarios.

In base station mode, it provides stable setup for high-precision drone missions. In rover station mode, the survey pole can be used independently for control point and check point data collection.
